Scoreboards 2025/26***

BespokeScoreboards.co.uk

Bespoke Scoreboards

Bespoke Scoreboards manufacture a range of scoreboards for Rugby, Football and Hockey. Rugby scoreboards display the score up to 99, while football and hockey display the score up to 19.

The LED displays are available in a range of sizes from 4 inches, up to 16 inches tall (10 to 40 cm).

Our scoreboards can display the score along with the time in minutes, and/or seconds. The timer can count up or down to suit your preference.

Our scoreboards are weather tight, and therefore suitable for temporary or permanent installation outside. They can be powered from a 12V leisure battery or 230V mains supply.

When you make an enquiry, we understand that it's the first step in acquiring knowledge of our scoreboards and whether they will be suitable for your needs. We know how clubs and committees operate, and we are not expecting you to place an order there and then, so please don't be afraid to make an enquiry or ask question.

Bespoke Scoreboards

Controllers

We have 3 different controllers available for our rugby, football and hockey scoreboards. These are:

- a wireless handheld controller.
- a wireless portable controller
- buttons mounted directly in the side of the scoreboard.

Wireless Handheld Controller

Most clubs take the wireless handheld controller for it's convenience. The handheld controller has a typical wireless range of 100 metres, over 10 hours of battery life per charge, and chargeable from any USB output.

The wireless portable controller has displays for the score and for setting the timer, and a timer running indicator LED. It has a typical wireless range of over 200 metres and around 10 hours of battery life. Choosing this option increases the prices on the following pages by £113.

Wireless Portable Controller

The simplest and cheapest option is to have the control buttons mounted to the side of the scoreboard. This is handy if you have a smaller scoreboard that gets moved from ground to ground, or you have lots of operators and you don't want the controller to go missing, or find that it hasn't been charged. Choosing this option reduces the prices on the following pages by £40.

Football and Hockey Scoreboard Prices

Football and Hockey scoreboard display the team scores up to 19, a timer that shows minutes and seconds up to 99.59. Again, these prices include the wireless handheld controller, a mains power supply and a power lead.

Football and Hockey Score and Timer prices

		Timer Digit Size				
		6"	9"	11"	13"	16"
Score Digit Size	6"	£1259	£1313	£1436	£1548	£1827
	9"	£1330	£1400	£1523	£1640	£1930
	11"	£1414	£1484	£1612	£1741	£2040
	13"	£1505	£1580	£1720	£1848	£2170
	16"	£1750	£1836	£1985	£2136	£2466

All prices exclude delivery cost and VAT

If you are wanting a Football or Hockey scoreboard that only shows the scores without a timer, then these are priced below. These prices include the wireless handheld controller, a mains power supply and a power lead.

Football and Hockey Score Only prices

6"	9"	11"	13"	16"
£1038	£1105	£1196	£1370	£1611

All prices exclude delivery cost and VAT

Bespoke Scoreboards

If you are looking only for a match timer, then these are also available. Again these prices include the wireless handheld controller, a mains power supply and a power lead.

Timer Only prices

6"	9"	11"	13"	16"
£1170	£1230	£1370	£1520	£1795

6" and 9" digit scoreboard
with mounting plate and
tripod base

For mounting your scoreboard, we also include either wall mounting brackets, M10 threaded holes if you want to attach it between two poles, or two handles if you are moving it around and want to hang it up on hooks.

If you are wanting to power your scoreboard from a battery rather than mains, we can supply an 80Ah leisure battery, an upgraded larger mains power supply for charging the battery, battery charging lead and battery terminal cable mounts for £125 + carriage and VAT. A full charge in the leisure battery will power the scoreboard for over 10 hours.

If you are looking at a more permanent installation but don't have mains power at that location, then our solar power kit is also a brilliant addition to your scoreboard. The solar panel charges the leisure battery through the week keeping it charged for match days so removes the risk of someone forgetting to recharge the leisure battery. The kit costs £240 + carriage and VAT.

Bespoke 🏏🏈⚽ Scoreboards

Our wireless controllers support simultaneous control of multiple scoreboards, making them ideal for larger grounds where two or more scoreboards are required.

When using the timer, if you set the time to zero, then it will count up from zero until you stop it, to a maximum of 99 minute and 59 seconds. If you put in any other start time, then the counter will count down from that time to zero and stop. The timer can be paused using the start/stop button for breaks in play if needed.

The images in this brochure are common examples of what customers typically want. If you want a minutes timer without the seconds, no problem. If you want the displays to fit a space that you already have, no problem. Our scoreboards are bespoke and designs will be tailored for what you require.
